Bachelor of Science in Nutrition
options in
• Nutrition/Dietetics
• Nutrition Science
• Wellness

Pathways

Freshman
• NTRI 2000 – Nutrition and Health
• CHEM 1030/1031, CHEM 1040/1041 and BIOL 1020/1021
• BIOL 2500/2510 and Organic Chemistry
• Apply to the NTRI program (for NTDX)
• For students in the Nutrition Science Pre-Med route, you may consider these courses: SCMH 3890 Premedical preceptorship-PA
• SCMH 3810 Pre-PT practicum

Sophomore
• Work hard to make competitive grades especially in sciences.
• Meet regularly with your academic advisor and consult them when you have concerns about admission to particular classes or need more information about class requirements
• If interested in professional medical education meet with pre-health advisor Linda Bruner in the College of Sciences and Mathematics.
• Academic Support provides several free resources to improve performance including Study Partners, Supplemental Instruction and academic coaching. (auburn.edu/academicsupport)
• Peer tutoring in the College of Human Sciences
• Meet with the University Career Center (UCC) to explore career and job opportunities. Spindle Hall, home of the College of Human Sciences student advising.
• Identify your reference letter writers early for graduate school or the job search and provide them with plenty of notice.
• Ask UCC for help in preparing your resume.

Junior
• Job shadowing is an essential part of increasing your competitiveness for entering into healthcare related fields and can provide insight into the area you wish to pursue.
• Use Handshake to explore employers actively hiring in your field and search part-time jobs that can add experience to your resume.
• If you have not already done so, begin volunteering.
• Volunteering is an important piece of your nutrition dietetics and professional school applications.
• Continue to maintain your volunteer commitments.
• PPAC (Pre-Professional Advising Committee) is an opportunity for Auburn students to enhance their commitments and continue to seek out additional opportunities to enhance your competitiveness.

Senior
• Partaking in undergraduate research is an important piece of entering into healthcare related fields
• Look to take on leadership roles within the organizations you joined freshmen year.
• Continuing in undergraduate research is a great way to familiarize yourself with the field and identify research opportunities. Contact Nutrition faculty members to inquire about potential opportunities.
• Kappa Omicron Nu (KON) is a national honor society for students in the human sciences. If invited, join.
• In the Spring run for KON, SDA, or AED leadership positions
• Connect with AU alumni and stakeholders to enhance professional opportunities

Career Planning

University Career Center
303 Mary Martin Hall | career.auburn.edu

The program is designed to provide students with the foundational coursework necessary to enter professional medical and paramedical post graduate programs. Entrance into the field often requires obtaining graduate education. Current students should look to take advantage of multiple experiential opportunities in and out of the classroom.

ASK FOR ASSISTANCE

• Meet regularly with your academic advisor and consult them when you have concerns about admission to particular classes or need more information about class requirements
• If interested in professional medical education meet with pre-health advisor Linda Bruner in the College of Sciences and Mathematics.
• Academic Support provides several free resources to improve performance including Study Partners, Supplemental Instruction and academic coaching. (auburn.edu/academicsupport)
• Peer tutoring in the College of Human Sciences
• Meet with the University Career Center (UCC) to explore career and job opportunities. Spindle Hall, home of the College of Human Sciences student advising.
• Identify your reference letter writers early for graduate school or the job search and provide them with plenty of notice.
• Ask UCC for help in preparing your resume.

GAIN EXPERIENCE

• Job shadowing is an essential part of increasing your competitiveness for entering into healthcare related fields and can provide insight into the area you wish to pursue.
• Use Handshake to explore employers actively hiring in your field and search part-time jobs that can add experience to your resume.
• If you have not already done so, begin volunteering.
• Volunteering is an important piece of your nutrition dietetics and professional school applications.
• Continue to maintain your volunteer commitments.
• PPAC (Pre-Professional Advising Committee) is an opportunity for Auburn students to enhance their application packet for professional schools. Meetings will begin in the Fall of your junior year for student interested in pursuing professional education.
• Continue to maintain your volunteer commitments and continue to seek out additional opportunities to enhance your competitiveness.
