The Parent Portion of the Your Major Workshop will consist of a variety of recorded presentations and an in-person discussion and panel to help you to better understand and assist your student in their transition to the university. You will be learning more about what your student is learning in the program as well as ideas on how you can assist their exploration. The learning process will take place through video presentations, and online resources to explore, as well as an on-campus meeting with a career counselor and a panel with representatives from Student Counseling and Psychological Services, Academic Support, and Parent and Family Programs.

LEARNING OUTCOMES

Upon completing this workshop, parents will be able to:

- conceptualize how your student's brain is developing as they prepare for and enter college, and the impact this developmental stage has on their decision making
- teach your student about academics at Auburn – policies, majors/minors, resources
- refer students to resources and tools that will help make informed and practical decisions about their future career
- support student’s career development as they are choosing a major and career
